American Journal of Physiology:
Cell Physiology

No. 1. JULY 1999

INVITED REVIEW

Myofibroblasts. I. Paracrine cells important in health and disease
D. W. Powell, R. C. Mifflin, J. D. Valentich, S. E. Crowe, J. I. Saada, and A. B. West C1

Peroxide-induced membrane blebbing in endothelial cells associated with glutathione oxidation but not apoptosis
R. M. A. van Gorp, J. L. V. Broers, C. P. M. Reutelingsperger, N. M. H. J. Bronnenberg, G. Hornstra, M. C. E. van Dam-Mieras, and J. W. M. Heemskerk C20

Na^+-K^+ pump and metabolic activities of trout erythrocytes during anoxia
J. Pesquero, T. Roig, J. Sánchez, and J. Bermúdez C29

Sex steroids regulate pro- and anti-inflammatory cytokine release by macrophages after trauma-hemorrhage
M. K. Angele, M. W. Knöferl, M. G. Schwacha, A. Ayala, W. G. Cioffi, K. I. Bland, and I. H. Chaudry C35

Calcium dependence of C-type natriuretic peptide-formed fast K^+ channel
J. I. Kourie C43

Ca^{2+} influx inhibits voltage-dependent and augments Ca^{2+}-dependent K^+ currents in arterial myocytes
R. H. Cox and S. Petrou C51

Long-term effects of Ca^{2+} on structure and contractility of vascular smooth muscle
A. Lindqvist, I. Nordström, U. Malmqvist, P. Nordenfelt, and P. Hellstrand C64

Cholecystokinin induction of *mob-1* chemokine expression in pancreatic acinar cells requires NF-κB activation
B. Han and C. D. Logsdon C74

Membrane phospholipid composition affects function of potassium channels from rabbit colon epithelium
K. Turnheim, J. Gruber, C. Wachter, and V. Ruiz-Gutiérrez C83

Voltage-dependent outward K^+ current in intermediate cell of stria vascularis of gerbil cochlea
S. Takeuchi and M. Ando C91

Protein kinase C inhibits Kv1.1 potassium channel function
L. M. Boland and K. A. Jackson C100

Activation of Ca^{2+}- and cAMP-sensitive K^+ channels in murine colonic epithelia by 1-ethyl-2-benzimidazolone
A. W. Cuthbert, M. E. Hickman, P. Thorn, and L. J. MacVinish C111

Disruption of disulfide bonds exhibits differential effects on trafficking of regulated secretory proteins
S.-U. Gorr, X. F. Huang, D. J. Cowley, R. Kuliawat, and P. Arvan C121

Characterization of osteoblastic differentiation of stromal cell line ST2 that is induced by ascorbic acid
E. Otsuka, A. Yamaguchi, S. Hirose, and H. Hagiwara C132

Norepinephrine-induced Ca^{2+} waves depend on $InsP_3$ and ryanodine receptor activation in vascular myocytes
F.-X. Boittin, N. Macrez, G. Halet, and J. Mironneau C139

Focal adhesion proteins FAK and paxillin increase in hypertrophied skeletal muscle
M. Flück, J. A. Carson, S. E. Gordon, A. Ziemiecki, and F. W. Booth C152

Phagocytic and macropinocytic activity in MARCKS-deficient macrophages and fibroblasts
E. Carballo, D. M. Pitterle, D. J. Stumpo, R. T. Sperling, and P. J. Blackshear C163

RAPID COMMUNICATION

Syntaxin 1A inhibits regulated CFTR trafficking in *Xenopus* oocytes
K. W. Peters, J. Qi, S. C. Watkins, and R. A. Frizzell C174

No. 2. AUGUST 1999

EDITORIAL

Something old, something new
K. E. Barrett C181

INVITED REVIEW

Myofibroblasts. II. Intestinal subepithelial myofibroblasts
D. W. Powell, R. C. Mifflin, J. D. Valentich, S. E. Crowe, J. I. Saada, and A. B. West C183

EDITORIAL FOCUS

Focus on "Multiple functional P2X and P2Y receptors in the luminal and basolateral membranes of pancreatic duct cells"
G. R. Dubyak C202

Multiple functional P2X and P2Y receptors in the luminal and basolateral membranes of pancreatic duct cells
X. Luo, W. Zheng, M. Yan, M. G. Lee, and S. Muallem C205

Regulation of the epithelial Na^+ channel by intracellular Na^+
M. S. Awayda C216

Functional changes in troponin T by a splice donor site mutation that causes hypertrophic cardiomyopathy
H. Nakaura, S. Morimoto, F. Yanaga, M. Nakata, H. Nishi, T. Imaizumi, and I. Ohtsuki C225

Tissue factor activity is increased in human endothelial cells cultured under elevated static pressure
M. D. Silverman, C. R. Waters, G. T. Hayman, J. Wigboldus, M. M. Samet, and P. I. Lelkes C233

Pregnant rat myometrial cells show heterogeneous ryanodine- and caffeine-sensitive calcium stores
C. Martin, J.-M. Hyvelin, K. E. Chapman, R. Marthan, R. H. Ashley, and J.-P. Savineau C243

Mechanisms of MAPK activation by bradykinin in vascular smooth muscle cells
V. Velarde, M. E. Ullian, T. A. Morinelli, R. K. Mayfield, and A. A. Jaffa C253

Nitric oxide acts independently of cGMP to modulate capacitative Ca^{2+} entry in mouse parotid acini
E. L. Watson, K. L. Jacobson, J. C. Singh, and S. M. Ott C262

Human colonic subepithelial myofibroblasts modulate transepithelial resistance and secretory response
J. Beltinger, B. C. McKaig, S. Makh, W. A. Stack, C. J. Hawkey, and Y. R. Mahida C271

Ammonium transport by the colonic H^+-K^+-ATPase expressed in *Xenopus* oocytes
M. Cougnon, P. Bouyer, F. Jaisser, A. Edelman, and G. Planelles C280

Actively phosphorylating mitochondria are more resistant to lactic acidosis than inactive mitochondria
M. Tonkonogi and K. Sahlin C288

AP-1 mediates stretch-induced expression of HB-EGF in bladder smooth muscle cells
J. M. Park, R. M. Adam, C. A. Peters, P. D. Guthrie, Z. Sun, M. Klagsbrun, and M. R. Freeman C294

PGE_2-mediated inhibition of T cell $p59^{fyn}$ is independent of cAMP
M. A. Choudhry, Z. Ahmed, and M. M. Sayeed C302

Antagonism of CD95 signaling blocks butyrate induction of apoptosis in young adult mouse colonic cells
Y.-Y. Fan, J. Zhang, R. Barhoumi, R. C. Burghardt, N. D. Turner, J. R. Lupton, and R. S. Chapkin C310

Systemic administration of the NF-κB inhibitor curcumin stimulates muscle regeneration after traumatic injury
D. Thaloor, K. J. Miller, J. Gephart, P. O. Mitchell, and G. K. Pavlath C320

Glucocorticoids regulate transendothelial fluid flow resistance and formation of intercellular junctions
J. L. Underwood, C. G. Murphy, J. Chen, L. Franse-Carman, I. Wood, D. L. Epstein, and J. A. Alvarado C330

Cell proliferation is associated with enhanced capacitative Ca^{2+} entry in human arterial myocytes
V. A. Golovina C343

No. 3. SEPTEMBER 1999

INVITED REVIEW

Innate mechanisms of epithelial host defense: spotlight on intestine
G. Hecht C351

EDITORIAL FOCUS

Parietal cell membrane trafficking. Focus on "Expression of rab11a N124I in gastric parietal cells inhibits stimulatory recruitment of the H^+-K^+-ATPase"
B. H. Hirst C359

Expression of rab11a N124I in gastric parietal cells inhibits stimulatory recruitment of the H^+-K^+-ATPase
J. G. Duman, K. Tyagarajan, M. S. Kolsi, H.-P. H. Moore, and J. G. Forte C361

Intracellular Cl regulates Na-K-Cl cotransport activity in human trabecular meshwork cells
L. K. Putney, C. R. T. Vibat, and M. E. O'Donnell C373

Status of Ca^{2+}/calmodulin protein kinase phosphorylation of cardiac SR proteins in ischemia-reperfusion
T. Netticadan, R. Temsah, M. Osada, and N. S. Dhalla C384

Separate taurine and chloride efflux pathways activated during regulatory volume decrease
A. Stutzin, R. Torres, M. Oporto, P. Pacheco, A. L. Eguiguren, L. P. Cid, and F. V. Sepúlveda C392

Quercetin inhibits inducible ICAM-1 expression in human endothelial cells through the JNK pathway
H. Kobuchi, S. Roy, C. K. Sen, H. G. Nguyen, and L. Packer C403

Electrically silent potassium channel subunits from human lens epithelium
A. R. Shepard and J. L. Rae C412

JNK is a volume-sensitive kinase that phosphorylates the Na-K-2Cl cotransporter in vitro
J. D. Klein, S. T. Lamitina, and W. C. O'Neill C425

Intracellular elasticity and viscosity in the body, leading, and trailing regions of locomoting neutrophils
M. Yanai, J. P. Butler, T. Suzuki, A. Kanda, M. Kurachi, H. Tashiro, and H. Sasaki C432

Myosin regulation of NKCC1: effects on cAMP-mediated Cl^- secretion in intestinal epithelia
G. Hecht and A. Koutsouris C441

Visualization of origins and propagation of excitation in canine gastric smooth muscle
R. J. Stevens, J. S. Weinert, and N. G. Publicover C448

Angiotensin regulates the selectivity of the Na^+-K^+ pump for intracellular Na^+
K. A. Buhagiar, P. S. Hansen, D. F. Gray, A. S. Mihailidou, and H. H. Rasmussen C461

Intracellular pH shifts in cultured kidney (A6) cells: effects on apical Na^+ transport
W. Zeiske, I. Smets, M. Ameloot, P. Steels, and W. Van Driessche C469

Extracellular ATP stimulates volume decrease in *Necturus* red blood cells
D. B. Light, T. L. Capes, R. T. Gronau, and M. R. Adler C480

Acidosis antagonizes intracellular calcium response to κ-opioid receptor stimulation in the rat heart
J.-M. Pei, X.-C. Yu, J.-S. Bian, and T.-M. Wong C492

Secretagogue response of goblet cells and columnar cells in human colonic crypts
D. R. Halm and S. T. Halm C501

Endotoxin-mediated nitric oxide synthesis inhibits IL-1β gene transcription in ANA-1 murine macrophages
R. A. Schroeder, C. Cai, and P. C. Kuo C523

Phosphoinositide 3-kinase is required for aldosterone-regulated sodium reabsorption
B. L. Blazer-Yost, T. G. Păunescu, S. I. Helman, K. D. Lee, and C. J. Vlahos C531

Apolipoprotein A-I gene expression is regulated by cellular zinc status in Hep G2 cells
J. Y. J. Wu, Y. Wu, S. K. Reaves, Y. R. Wang, P. P. Lei, and K. Y. Lei C537

Apical and basolateral CO_2-HCO_3^- permeability in cultured bovine corneal endothelial cells
J. A. Bonanno, Y. Guan, S. Jelamskii, and X. J. Kang C545

PKC-dependent regulation of transepithelial resistance: roles of MLC and MLC kinase
J. R. Turner, J. M. Angle, E. D. Black, J. L. Joyal, D. B. Sacks, and J. L. Madara C554

CFTR is functionally active in GnRH-expressing GT1–7 hypothalamic neurons
R. T. Weyler, K. A. Yurko-Mauro, R. Rubenstein, W. J. W. Kollen, W. Reenstra, S. M. Altschuler, M. Egan, and A. E. Mulberg C563

Regulation of intestinal tyrosine phosphorylation and programmed cell death by peroxovanadate
L. A. Scheving, J. R. Thomas, and L. Zhang C572

Expression of PKA inhibitor (*PKI*) gene abolishes cAMP-mediated protection to endothelial barrier dysfunction
H. Lum, H. A. Jaffe, I. T. Schulz, A. Masood, A. RayChaudhury, and R. D. Green C580

Activated satellite cells fail to restore myonuclear number in spinal cord transected and exercised rats
E. E. Dupont-Versteegden, R. J. L. Murphy, J. D. Houlé, C. M. Gurley, and C. A. Peterson C589

RAPID COMMUNICATION

Osteocyte hypoxia: a novel mechanotransduction pathway
J. S. Dodd, J. A. Raleigh, and T. S. Gross C598

No. 4. OCTOBER 1999

EDITORIAL FOCUS

Intestinal absorption of water-soluble vitamins. Focus on "Molecular mechanism of the intestinal biotin transport process"
K. Ramaswamy C603

Molecular mechanism of the intestinal biotin transport process
N. S. Chatterjee, C. K. Kumar, A. Ortiz, S. A. Rubin, and H. M. Said C605

The astrocytic endothelin system: toward solving a mystery. Focus on "Distinct pharmacological properties of ET-1 and ET-3 on astroglial gap junctions and Ca^{2+} signaling"
H. Ehrenreich C614

Distinct pharmacological properties of ET-1 and ET-3 on astroglial gap junctions and Ca^{2+} signaling
F. Blomstrand, C. Giaume, E. Hansson, and L. Rönnbäck C616

Transforming growth factor-β1 modulates the expression of vascular endothelial growth factor by osteoblasts
P. B. Saadeh, B. J. Mehrara, D. S. Steinbrech, M. E. Dudziak, J. A. Greenwald, J. S. Luchs, J. A. Spector, H. Ueno, G. K. Gittes, and M. T. Longaker C628

Expression of an inwardly rectifying K^+ channel, Kir4.1, in satellite cells of rat cochlear ganglia
H. Hibino, Y. Horio, A. Fujita, A. Inanobe, K. Doi, T. Gotow, Y. Uchiyama, T. Kubo, and Y. Kurachi C638

Transport of thiamine in human intestine: mechanism and regulation in intestinal epithelial cell model Caco-2
H. M. Said, A. Ortiz, C. K. Kumar, N. Chatterjee, P. K. Dudeja, and S. Rubin C645

MAP kinase cascade is required for p27 downregulation and S phase entry in fibroblasts and epithelial cells
N. Rivard, M.-J. Boucher, C. Asselin, and G. L'Allemain C652

Ceramide triggers intracellular calcium release via the IP_3 receptor in *Xenopus laevis* oocytes
E. Kobrinsky, A. I. Spielman, S. Rosenzweig, and A. R. Marks C665

Hypoxia modulates nitric oxide-induced regulation of NMDA receptor currents and neuronal cell death
M. Gbadegesin, S. Vicini, S. J. Hewett, D. A. Wink, M. Espey, R. M. Pluta, and C. A. Colton C673

Inhibition of Na^+-K^+-$2Cl^-$ cotransport by mercury
S. C. Jacoby, E. Gagnon, L. Caron, J. Chang, and P. Isenring C684

Cloning, expression, and characterization of the trout cardiac Na^+/Ca^{2+} exchanger
X.-H. Xue, L. V. Hryshko, D. A. Nicoll, K. D. Philipson, and G. F. Tibbits C693

Skeletal muscle contractile activity in vitro stimulates mitogen-activated protein kinase signaling
T. Hayashi, M. F. Hirshman, S. D. Dufresne, and L. J. Goodyear C701

Kinetics of cyclocreatine and Na^+ cotransport in human breast cancer cells: mechanism of activity
N. Maril, H. Degani, E. Rushkin, A. D. Sherry, and M. Cohn C708

Novel role of the Ca^{2+}-ATPase in NMDA-induced intracellular acidification
M.-L. Wu, J.-H. Chen, W.-H. Chen, Y.-J. Chen, and K.-C. Chu C717

Phosphorylation-dependent stimulation of prostanoid synthesis by nigericin in cerebral endothelial cells
H. Parfenova, J. Haffner, and C. W. Leffler C728

Desensitization to ANG II in guinea pig ileum depends on membrane repolarization: role of maxi-K^+ channel
B. A. Silva, V. L. A. Nouailhetas, and J. Aboulafia C739

Endothelins activate Ca^{2+}-gated K^+ channels via endothelin B receptors in CD-1 mouse erythrocytes
A. Rivera, M. A. Rotter, and C. Brugnara C746

Maitotoxin activates a nonselective cation channel and a P2Z/$P2X_7$-like cytolytic pore in human skin fibroblasts
W. P. Schilling, W. G. Sinkins, and M. Estacion C755

Maitotoxin and P2Z/$P2X_7$ purinergic receptor stimulation activate a common cytolytic pore
W. P. Schilling, T. Wasylyna, G. R. Dubyak, B. D. Humphreys, and W. G. Sinkins C766

Effects of macromolecular transport and stochastic fluctuations on dynamics of genetic regulatory systems
P. Smolen, D. A. Baxter, and J. H. Byrne C777

Persistence of external chloride and DIDS binding after chemical modification of Glu-681 in human band 3
S. Bahar, C. T. Gunter, C. Wu, S. D. Kennedy, and P. A. Knauf C791

Effects of osmolarity on taste receptor cell size and function
V. Lyall, G. L. Heck, J. A. DeSimone, and G. M. Feldman C800

PLA_2 stimulation of Na^+/H^+ antiport and proliferation in rat aortic smooth muscle cells
S. Rufini, P. De Vito, N. Balestro, M. Pescatori, P. Luly, and S. Incerpi C814

Volume-dependent taurine release from cultured astrocytes requires permissive $[Ca^{2+}]_i$ and calmodulin
A. A. Mongin, Z. Cai, and H. K. Kimelberg C823

RAPID COMMUNICATIONS

Defective function of the cystic fibrosis-causing missense mutation G551D is recovered by genistein
B. Illek, L. Zhang, N. C. Lewis, R. B. Moss, J.-Y. Dong, and H. Fischer C833

Anchoring protein is required for cAMP-dependent stimulation of L-type Ca^{2+} channels in rabbit portal vein
J. Zhong, J. R. Hume, and K. D. Keef C840

No. 5. NOVEMBER 1999

INVITED REVIEW

The mechanism of histamine secretion from gastric enterochromaffin-like cells
C. Prinz, R. Zanner, M. Gerhard, S. Mahr, N. Neumayer, B. Höhne-Zell, and M. Gratzl C845

EDITORIAL FOCUS

What molecular events underlie heterologous desensitization? Focus on "Receptor phosphorylation does not mediate cross talk between muscarinic M_3 and bradykinin B_2 receptors"
M. M. Hosey C856

Receptor phosphorylation does not mediate cross talk between muscarinic M_3 and bradykinin B_2 receptors
G. B. Willars, W. Müller-Esterl, and S. R. Nahorski C859

Hepatocytes are a rich source of novel aspirin-triggered 15-epi-lipoxin A_4
E. Titos, N. Chiang, C. N. Serhan, M. Romano, J. Gaya, G. Pueyo, and J. Clària C870

Correlation of oxidant-induced acute ATP depletion with delayed cell death in human neuroblastoma cells
H. Aito, T. K. Aalto, and K. O. Raivio C878

Differential regulation of renal sodium-phosphate transporter by glucocorticoids during rat ontogeny
Y. S. Guner, P. R. Kiela, H. Xu, J. F. Collins, and F. K. Ghishan C884

K^+/Na^+ antagonism at cytoplasmic sites of Na^+-K^+-ATPase: a tissue-specific mechanism of sodium pump regulation
A. G. Therien and R. Blostein C891

Mouse K-Cl cotransporter KCC1: cloning, mapping, pathological expression, and functional regulation
W. Su, B. E. Shmukler, M. N. Chernova, A. K. Stuart-Tilley, L. De Franceschi, C. Brugnara, and S. L. Alper C899

Two types of voltage-dependent potassium channels in outer hair cells from the guinea pig cochlea
T. Van Den Abbeele, J. Teulon, and P. Tran Ba Huy C913

Serine/threonine protein phosphatases and regulation of K-Cl cotransport in human erythrocytes
I. Bize, B. Güvenç, A. Robb, G. Buchbinder, and C. Brugnara C926

Effects of temperature on slow and fast inactivation of rat skeletal muscle Na^+ channels
R. L. Ruff C937

Identification of an acid-activated Cl^- channel from human skeletal muscles
M. Kawasaki, T. Fukuma, K. Yamauchi, H. Sakamoto, F. Marumo, and S. Sasaki C948

RhoA inactivation enhances endothelial barrier function
J. M. Carbajal and R. C. Schaeffer, Jr. C955

Loss of *Hoxa5* gene function in mice perturbs intestinal maturation
J. Aubin, P. Chailler, D. Ménard, and L. Jeannotte C965

Targeting of calsequestrin to sarcoplasmic reticulum after deletions of its acidic carboxy terminus
A. Nori, E. Gola, S. Tosato, M. Cantini, and P. Volpe C974

Apoptosis and atrophy in rat slow skeletal muscles in chronic heart failure
L. Dalla Libera, R. Zennaro, M. Sandri, G. B. Ambrosio, and G. Vescovo C982

Vascular wall dysfunction in JCR:LA-cp rats: effects of age and insulin resistance
S. F. O'Brien, J. C. Russell, and S. T. Davidge C987

MHC class II molecules, cathepsins, and La/SSB proteins in lacrimal acinar cell endomembranes
T. Yang, H. Zeng, J. Zhang, C. T. Okamoto, D. W. Warren, R. L. Wood, M. Bachmann, and A. K. Mircheff C994

SPECIAL COMMUNICATION

Long-wavelength iodide-sensitive fluorescent indicators for measurement of functional CFTR expression in cells
S. Jayaraman, L. Teitler, B. Skalski, and A. S. Verkman C1008

LETTERS TO THE EDITOR

On volume regulation leading to epithelial fluid transport
J. Fischbarg C1019

No. 6. DECEMBER 1999

INVITED REVIEW

Role of protein phosphatases in the regulation of human mast cell and basophil function
M. J. Peirce, M. R. Munday, and P. T. Peachell C1021

EDITORIAL FOCUS

HSP27 and signaling to the actin cytoskeleton. Focus on "HSP27 expression regulates CCK-induced changes of the actin cytoskeleton in CHO-CCK-A cells"
C. T. Okamoto C1029

HSP27 expression regulates CCK-induced changes of the actin cytoskeleton in CHO-CCK-A cells
C. Schäfer, P. Clapp, M. J. Welsh, R. Benndorf, and J. A. Williams C1032

Time-dependent changes in myosin heavy chain mRNA and protein isoforms in unloaded soleus muscle of rat
L. Stevens, K. R. Sultan, H. Peuker, B. Gohlsch, Y. Mounier, and D. Pette C1044

Involvement of JAK2 and MAPK on type II nitric oxide synthase expression in skin-derived dendritic cells
M. T. Cruz, C. B. Duarte, M. Gonçalo, A. P. Carvalho, and M. C. Lopes C1050

Epidermal growth factor regulation in adult rat alveolar type II cells of amiloride-sensitive cation channels
P. J. Kemp, Z. Borok, K. J. Kim, R. L. Lubman, S. I. Danto, and E. D. Crandall C1058

Hypoxia/aglycemia increases endothelial permeability: role of second messengers and cytoskeleton
J. H. Park, N. Okayama, D. Gute, A. Krsmanovic, H. Battarbee, and J. S. Alexander C1066

Leukoregulin upregulation of prostaglandin endoperoxide H synthase-2 expression in human orbital fibroblasts
H. J. Cao and T. J. Smith C1075

Odor suppression of voltage-gated currents contributes to the odor-induced response in olfactory neurons
M. Sanhueza and J. Bacigalupo C1086

CFTR upregulates the expression of the basolateral Na^+-K^+-$2Cl^-$ cotransporter in cultured pancreatic duct cells
H. Shumaker and M. Soleimani C1100

Na^+/H^+ exchangers (NHE1–3) have similar turnover numbers but different percentages on the cell surface
M. E. Cavet, S. Akhter, F. S. De Medina, M. Donowitz, and C.-M. Tse C1111

Calcium transients in single fibers of low-frequency stimulated fast-twitch muscle of rat
S. Carroll, P. Nicotera, and D. Pette C1122

Heterogeneity of pig intestinal D-glucose transport systems
N. Halaihel, D. Gerbaud, M. Vasseur, and F. Alvarado C1130

Folic acid inhibition of EGFR-mediated proliferation in human colon cancer cell lines
R. Jaszewski, A. Khan, F. H. Sarkar, O. Kucuk, M. Tobi, A. Zagnoon, R. Dhar, J. Kinzie, and A. P. N. Majumdar C1142

Epidermal and hepatocyte growth factors stimulate chemotaxis in an intestinal epithelial cell line
D. B. Polk and W. Tong C1149

Actin filament organization is required for proper cAMP-dependent activation of CFTR
A. G. Prat, C. C. Cunningham, G. R. Jackson, Jr., S. C. Borkan, Y. Wang, D. A. Ausiello, and H. F. Cantiello C1160

Myosin molecular motor dysfunction in dystrophic mouse diaphragm
C. Coirault, F. Lambert, S. Marchand-Adam, P. Attal, D. Chemla, and Y. Lecarpentier C1170

Circadian regulation of uroguanylin and guanylin in the rat intestine
L. A. Scheving and W.-H. Jin C1177

Characterization of a phosphorylation event resulting in upregulation of the salivary Na^+-K^+-$2Cl^-$ cotransporter
K. Kurihara, M. L. Moore-Hoon, M. Saitoh, and R. J. Turner C1184

Matrix free Mg^{2+} and the regulation of mitochondrial volume
D. W. Jung and G. P. Brierley C1194

Protein kinase D inhibits plasma membrane Na^+/H^+ exchanger activity
R. S. Haworth, J. Sinnett-Smith, E. Rozengurt, and M. Avkiran C1202

Molecular cloning and functional characterization of KCC3, a new K-Cl cotransporter
J. E. Race, F. N. Makhlouf, P. J. Logue, F. H. Wilson, P. B. Dunham, and E. J. Holtzman C1210

Asymmetric distribution of muscarinic acetylcholine receptors in Madin-Darby canine kidney cells
L. S. Nadler, G. Kumar, T. R. Hinds, J. C. Migeon, and N. M. Nathanson C1220

Taurine prevents high-glucose-induced human vascular endothelial cell apoptosis
Q. D. Wu, J. H. Wang, F. Fennessy, H. P. Redmond, and D. Bouchier-Hayes C1229

PKC-ϵ regulates basolateral endocytosis in human T84 intestinal epithelia: role of F-actin and MARCKS
J. C. Song, B. J. Hrnjez, O. C. Farokhzad, and J. B. Matthews C1239

Role of microtubules in the regulation of metabolism in isolated cerebral microvessels
P. G. Lloyd and C. D. Hardin C1250

Skeletal muscle reperfusion injury is mediated by neutrophils and the complement membrane attack complex
C. Kyriakides, W. Austen, Jr., Y. Wang, J. Favuzza, L. Kobzik, F. D. Moore, Jr., and H. B. Hechtman C1263

SPECIAL COMMUNICATION

Normalization of muscle plasmid uptake by Southern blot: application to SERCA1 promoter analysis
H. Mitchell-Felton and S. C. Kandarian C1269

RAPID COMMUNICATIONS

Role of gelsolin in the actin filament regulation of cardiac L-type calcium channels
A. S. Lader, D. J. Kwiatkowski, and H. F. Cantiello C1277

Role of HERG-like K^+ currents in opossum esophageal circular smooth muscle
H. I. Akbarali, H. Thatte, X. D. He, W. R. Giles, and R. K. Goyal C1284
